Here is a summary of day trips the Travel Committee has organized since last fall.

In September members and guests visited the Rockford Japanese Gardens in the morning and Midway Village in the afternoon.

In October the group took a bus to Warrens, WI and visited a cranberry bog to watch the harvest. After lunch a stop was made at the Cranberry Museum and Gift Store.

In January there was a program at the School of Veterinary Medicine followed by a tour of that facility along with tours of the newly remodeled dairy barn on campus and the Wisconsin Veterinary Diagnostic Laboratory.

In April the busload traveled to the Harley Davidson Museum and The Domes in Milwaukee for a guided tour of both. The Palermo restaurant at their factory location was our luncheon stop.

The possibility of attending a Brewers Game in Milwaukee was tabled due to constraints connected with ticket purchase deadlines.

This coming July a busload will be traveling to American Players Theater in Spring Green to get a behind-the-scenes tour prior to a picnic supper and evening performance.

In September the committee plans a Wisconsin Dells day trip. Among the possible stops are the Bennett Museum, International Crane Foundation, Upper Dells Boat Trip, and Wollersheim Winery, Sauk Prairie. Plans will be finalized by the end of July.
